

Young Carer Inclusion Network

Purpose and objectives

The Young Carer Inclusion Network brings together service providers and professionals engaging with young people in NSW to improve the identification and support of young carers* through:

- **identifying gaps** in mainstream service sectors (e.g. health, education)
- **building the capacity** of professionals to identify young carers
- **streamlining access to support** for young carers

Participation

The Young Carer Inclusion Network is open to anyone who works with young people in NSW, for example in the education, health, mental health and youth services sectors, and who wants to better understand and support young carers.

Participants in the Network will be encouraged to:

- Attend and contribute to 2-3 hybrid meetings per year
- Share insights and initiatives from their sector
- Inform and promote Network activities

To find out more, please phone 02 9280 4744 or email yc@carersnsw.org.au.

Gain new knowledge, skills and contacts

Support the development of resources and tools to improve practice in your sector

Have opportunities to share about your work and achievements

Make new connections with likeminded professionals

Contribute to improved awareness about young carers in the community

Be recognised as committed to supporting disadvantaged groups of young people
