

2024 National Carer Survey

Victoria Highlights

The 2024 National Carer Survey results tell us a lot about carers' day-to-day experiences, support needs and perspectives on caring. Below are some of the key findings from Victoria so far.

"Perhaps simply to be asked about my needs and if I am ok. I am fortunate to be reminded regularly by my husband how much he values what I do for him."

How recognised and valued carers feel

"Paying for my mother's care has placed financial strain on me and security for the future."

Financial experiences

Whether or not basic needs are met

Wellbeing, psychological distress and connection

"As a carer it is rewarding however can be hard due to the many personal sacrifices one makes as the person you care for is your priority... In saying that the carer role has taught me patience [and] finding positives in situations..."

The National Carer Survey is an initiative of Carers NSW in partnership with the other State and Territory Carer Organisations. The Survey is proudly funded by the NSW Department of Communities and Justice (DCJ).
